

The research is clear that children who don't read during the summer can lose up to three months of reading progress and that loss has a cumulative, long-term effect.

www.readingrockets.org

Since Belleview library closed May 8, following Cherry Creek School District guidelines, we have organized, inventoried, and prepared books to hibernate this summer. However, reading should not go into hibernation. Please encourage your child to read 20 minutes or more on most days this summer.

According to Donalyn Miller, author of *The Book Whisperer* and *Reading in the Wild*, lifelong readers dedicate time to reading, self-select books, share books and reading with others, plan a to-read list, and show reading preferences. Let your child choose what they want to read and encourage them along the way. Reading takes you places! *Sarah Pauly*, Librarian & Technology Teacher
